“Crème Ganache”

- * The cake shop Yamao offers our most popular product “Crème Ganache”, which is a very simple cake made from only the ingredients of sponge cakes, fresh cream, chocolate.
- *
- * The sponge cake is made very soft rather than what is commonly called a sponge cake in order that it may be melt in the mouth first.
- *
- * The fresh cream is a 100% domestic cream, which is carefully selected to be a light taste.
- *
- * The chocolate is blended so that the last remaining taste will be a little remembered and make it distinctively finished.

Goshuin

- * A hand-written certificate in Indian Ink with an affixed red seal
- * Goshuin-cho – Passport to the Heaven

Thank you for your kind attention
